PROFILE

Unity developer and gameplay programmer who leads programming teams, backed by over seven years of shipping games as a designer. I build combat, enemy AI and UI systems in C#, and I understand why a feature exists as well as how to build it, which makes me a strong bridge between design and engineering. Currently Lead Programmer on Kibo and the Cursed Lands and Technical Director at Creative Mob Studios.

TECHNICAL SKILLS

Languages & engines	C#, Unity, Unreal Engine (Blueprints)
Gameplay systems	Combat, enemy AI and finite state machines, skills and abilities, card-game systems, UI implementation
Workflow & tools	Git, Perforce, Jira, Confluence, Notion, Miro, Photoshop, Aseprite
Leadership	Leading programming teams, hiring and mentoring, technical direction, design-to-engineering handoff

EXPERIENCE

Lead Programmer

Jun 2025 – Present

Eleos Games · Kibo and the Cursed Lands · Unity, C# · Remote, volunteer

- Lead a 5-person programming team within a 60-person project, including hiring, onboarding and mentoring junior and mid-level programmers.
- Designed and implemented much of the combat system.
- Rebuilt the enemy finite state machine on Unity's newer systems as a scalable, reusable framework, noticeably improving how enemies track and follow the player.
- Implemented a wide range of UI features, and advise on implementation approaches across the team.

Creator & Lead Developer

2026 – Present

Unannounced title · Published by Creative Mob Studios · Unity · Team of 2–3

- Built a technical demo in Unity that secured marketing and publishing support from Creative Mob Studios.
- Engineered a custom 2D shadow system: sprite-based shadows projected from a moving sun with simulated object height, managed centrally and previewed live in the editor.
- Leading development through closed alpha testing, targeting release in Q1 2027.

Technical Director

Oct 2025 – Present

Creative Mob Studios · Conqueror · Unreal Engine · Remote, volunteer

Promoted from Lead Designer to Gameplay Programmer to Technical Director

- Lead the programming and design departments, and work with the other directors on company direction and marketing strategy.
- Implemented skills and spells in Unreal Engine using Blueprints.

EXPERIENCE, CONTINUED

Founder & Solo Developer

2024 – 2026

Awkward Wolf Studios · Suit Up · Unity, C#, Photoshop

- Built and shipped Suit Up on Steam as a solo developer, designing and implementing every gameplay mechanic.
- Handled release end to end, including store publishing, marketing and community.

Contract Game Designer

Mar – May 2026 · Sep 2026 – Present

Polynormal · Oil Is Thicker Than Water · Remote, contract

- Designed and prototyped the core systems of a psychology-driven roguelite deck-builder, including the psychology framework, card-game flow, card creation and meta loop.
- Turned the creative director's vision and intended player feelings into documented, playable prototypes.

EARLIER EXPERIENCE: GAME DESIGN & PRODUCT

Senior Game Designer · Fin Fin — Jun – Dec 2023

Fashion League, Unity, team of 20. Designed the logic for how clothing items and styles combine, built to be systematic to implement while keeping player choice, plus the economy, mini-games and daily retention loops.

Senior Game Designer & Product Manager · Bloktopia — 2022 – 2023

VR metaverse, Unity, team of 10. Wrote specifications, user journeys and work orders that turned business requirements into buildable features, and designed VR mechanics and UX.

Lead Game Designer & Producer · Smart Dev / VeryPlay Studios — 2021 – 2022

Vietnam, Unity. Took three hyper-casual titles from concept to release on iOS and Android, managing a team of 6 developers and artists.

Game Designer · ABI Studios — 2019 – 2020

Vietnam, Unity. Sole designer across puzzle, action, word and casual titles, iterating live games from analytics and player feedback.

EDUCATION

BSc Computer Gameplay, Design & Production · Staffordshire University — 2011 – 2015

BTEC Music Performance, Theory & Production — 2008 – 2010

OUTSIDE WORK

Live music, rock climbing and jiu-jitsu.
